Klezmer Company Orchestra to play ‘KlezmerOlogy’ concert at FAU during six-day celebration of Jewish music and arts

Among the highlights will be "K-Tuber: Art and Melody of Love Letters," a lecture and exhibition exploring the beauty and history of Yiddish Jewish marriage contracts, promising to be a cultural enrichment event. The audience will have a great time listening to these spectacular arrangements.

Kida's director of music collections and performance at FAU Libraries, spent eight months compiling music from the Warhol Library's print music collection for the KlezmerOlogy project. The KlezmerOlogy materials from the library's collections will be incorporated throughout the festival in book arts, lectures, performances, and film.
